

Charlie Puth
M-EDP Candidate

Summary

I am submitting my application as an M-EDP candidate. In the 11 years I have worked in the industry, I have concentrated on document composition, with an emphasis on the marketing capabilities of the document. I have evolved a method of using dynamic insert on personalized communications that not only appeal to the sighted customer, but can also be effectively read to visually impaired customers.

I am a current EDP and have re-certified once. Although my work travel schedule prevents me from participating officially on committees, I frequently respond on message boards and blogs when I can be of help. Conferences such as Xplor and Graph Expo are great experiences for me each year as they allow me to network with my peers and exchange ideas.

Along with my resume, I have included two recommendations.

Charlie Puth
555-555-5555

Example include:

- Area of expertise
- Years in industry
- Brief summary of accomplishments
